Theatre Managers' Report

Rose committee

Air con system.

The heating is now up and running as it should and we have been advised that the parts replaced are under guarantee through ARCO.

I would recommend we now use arco for a yearly maintenance on the theatre heating as getting other companies in to maintain will cancel our guarantee on parts replaced by ARCO.

Please find attached quotes for both the theatre and council building.

Technical equipment

While doing our PAT Testing our technician Jordan has located out old equipment that is no longer used and just being kept in a box. He would like permission to advertise it for sale and any monies received would be banked and could be used towards the cost of replacement equipment. I have attached information on the equipments.

Hi Laurie,

I hope you are well. Whilst completing the P.A.T testing and doing some tidying of the theatre and tech room. I have found two devices that we no longer use, that when I have had a look are quite expensive.

Cloud MA60 Mixer Amplifier:

This goes for £390 new from multiple resellers. I think we could at least get £250 for it.

Cloud CX163 2 Zone Stereo Audio Mixer

This is around £510 for a new one. I think again this could go up for perhaps £400

If we sold these, the money could easily go towards replacing or renewing some of the equipment in the theatre. Like some new LED lights or perhaps some new wireless microphones.

Let me know your thoughts
Thanks
Jordan
