

Managers' Report.

Rose committee – 17th February 2024

Fire Alarm System

The fire alarm isn't working in the theatre due to a faulty panel. This needs urgent repair as we have a show booked in week beginning Monday 21st January 2024. After much chasing a quote was obtained from Securican, who look after the fire alarm system.

“The faulty fire panel in the Rose Theatre is closed protocol. To replace the panel and commission with a modern equivalent is £700.00 plus VAT. Please note that there is the possibility that some of the existing equipment will not be compatible and would also require replacing. We will have to assess this upon installation of the new panel. Any additional changes would be subject to additional costs.”

I was instructed by the clerk to order this work on Friday 12th January after she had consulted with individual members of this committee.

Budget

Please see below the following items for consideration.

Head mics

Due to wear and tear and increased in head mics needed id like 8 head microphones to be considered for purchased these are not in a standard room hire charge these are an added extra hire on top of the room hire.

A JTS 4 Channel Racked (4 mics) £2,199.00

B JTS 8 Channel Racked (8 mics) £4,199.00

Mics are normally hired out at £30 each, usually 5 at the time for £150. We are now getting requests for hire of more mics, and because we only have 5, they decide to hire all from elsewhere.

Lighting

Relacing lighting that is not LED & cost efficient and would also enhance the hirers experience attached proposed items. 4 lights in total – 2 of each

2 x £147 = £294.00

2 x £235 = £470.00
